

Group Creation in Microsoft 365

examlabpractice.com

<https://t.me/learningnets>

A variety of groups to choose from

- Microsoft 365 (formally Office 365 Group)
- Distribution Groups
- Mail-Enabled Security
- Security

Assigned vs Dynamic Groups

- Assigned groups are static. You manually assign objects
- Dynamic groups allows Azure to be queried based upon an attribute tied to an identity. Membership is based upon the attributes.
