

Below are cmdlets and parameters associated with the settings shown in the video. Remember, you can find more information about these commands on Microsoft's website:

<https://learn.microsoft.com/en-us/powershell/module/teams/?view=teams-ps>

These options are in the *Microsoft Teams Admin Center > Voice > Voicemail policies* section.

Note: Some Microsoft Teams cmdlets use the Boolean values *\$true/\$false* or *Enabled/Disabled* in PowerShell:

\$true or *Enabled*: Indicates that a setting or feature is On.

\$false or *Disabled*: Indicates that a setting or feature is Off.

Users can edit call answering rules

```
Set-CsOnlineVoicemailPolicy -Identity TestVoiceMailPolicy  
-EnableEditingCallAnswerRulesSetting $true
```

Maximum voicemail recording length (seconds)

```
Set-CsOnlineVoicemailPolicy -Identity TestVoiceMailPolicy  
-MaximumRecordingLength 00:01:30
```

The above example sets the recording length to 90 seconds

Primary prompt language

```
Set-CsOnlineVoicemailPolicy -Identity TestVoiceMailPolicy  
-PrimarySystemPromptLanguage en-US -SecondarySystemPromptLanguage de-DE
```

Please refer to this document to specify a language:

<https://learn.microsoft.com/en-us/powershell/module/teams/set-csonlinevoicemailusersettings?view=teams-ps>

Secondary prompt language

```
Set-CsOnlineVoicemailPolicy -Identity TestVoiceMailPolicy  
-PrimarySystemPromptLanguage en-US -SecondarySystemPromptLanguage de-DE
```

Please refer to this document to specify a language:

<https://learn.microsoft.com/en-us/powershell/module/teams/set-csonlinevoicemailusersettings?view=teams-ps>

Voicemail transcription

```
Set-CsOnlineVoicemailPolicy -Identity TestVoiceMailPolicy  
-EnableTranscription $true
```

Translation for transcriptions

```
Set-CsOnlineVoicemailPolicy -Identity TestVoiceMailPolicy  
-EnableTranscriptionTranslation $false
```

Mask profanity in voicemail transcription

```
Set-CsOnlineVoicemailPolicy -Identity TestVoiceMailPolicy  
-EnableTranscriptionProfanityMasking $true
```

Users can share data for service improvement

```
Set-CsOnlineVoicemailPolicy -Identity TestVoiceMailPolicy -ShareData Defer
```

Microsoft Team Admin Center option	PowerShell
On	Defer
Off	Deny

Disconnect the call if preamble or postamble audio can't be played

```
Set-CsOnlineVoicemailPolicy -Identity TestVoiceMailPolicy  
-PreamblePostambleMandatory $true
```
