

# C2?

- C2 / C&C / Command & Control Server.
- A program that can **remotely** communicate and control computers.
  - Execute system commands.
  - Access system resources.
  - Extract sensitive data.
  - Pivot.
  - ...etc
- Typically made up of 2 parts:
  - Agent / Client / Backdoor → **Runs on the target system.**
  - Server → **Runs on the cloud.**

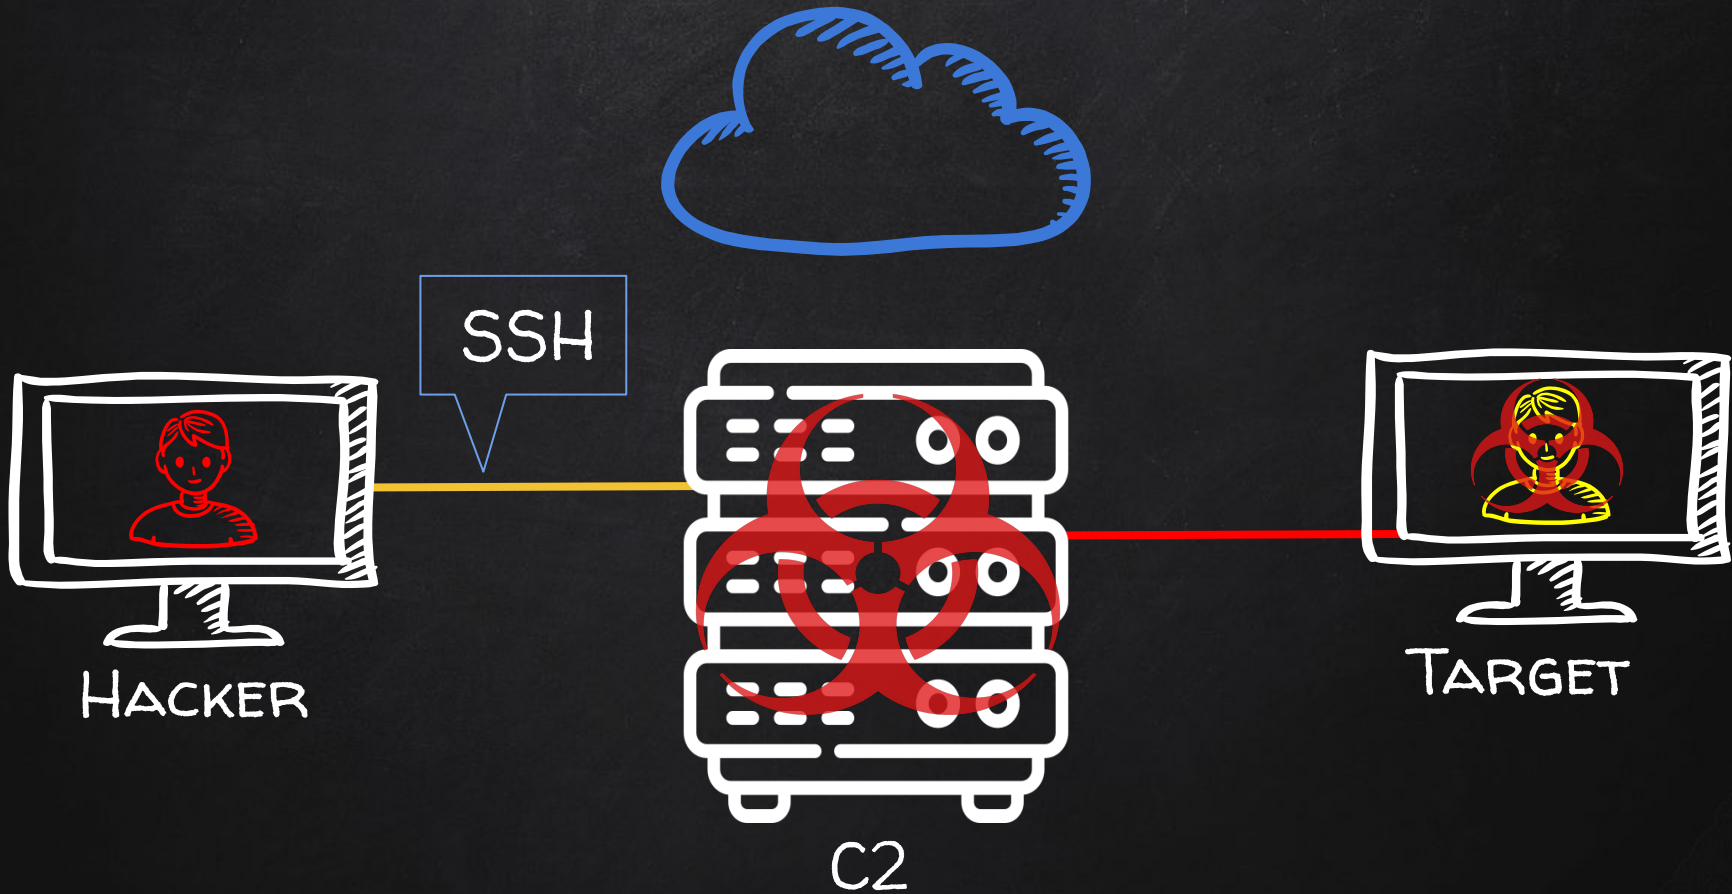

TARGET

# C2 FRAMEWORKS

- There are many C2 frameworks.
- Paid and free.
- The C2 Matrix is a good resource to compare them.
