

## Windows Installation Instructions

By default, Python does not come installed on the Windows operating system. Download the Python installer from the Python downloads page at <https://www.python.org/downloads>. Click on "Download Python 3.x.x." to download the installer. Double click the file to start the installation process. Simply keep clicking on "Next" to accept all of the defaults. If you are asked if you want to install software on this computer, click on "Yes." To exit the installer and complete the Python installation, click on "Finish."
