Pluralsight is not an official partner or accredited training center of EC-Council. This series provides the foundational knowledge needed to ethically and effectively discover and exploit vulnerabilities in systems by assuming both the mindset and toolset of an attacker. Through learning how systems are attacked you will gain an understanding of how best to protect systems and improve your organization's security. This series of courses and labs can be used to prepare for the EC-Council® C|EH® (Certified Ethical Hacker) examination, with coverage of C|EHv11 for 312-50 (ECC EXAM), 312-50 (VUE).

Certification Prep Path  
This path will help prepare you for a certification exam.
