
“Hello World” in Assembly

Information needed

1. write Syscall Number

2. Input parameters for the write syscall

3. Where to store the input parameters of write syscalls ?

Information needed

1. write Syscall Number : ---> file /usr/include/asm/unistd_64.h

2. Input parameters for the write syscall

3. Where to store the input parameters of write syscalls ?

Information needed

1. write Syscall Number : ---> file /usr/include/asm/unistd_64.h

2. Input parameters for the write syscall : ---> command: man 2 <syscall_ name>

3. Where to store the input parameters of write syscalls ?

Information needed

1. write Syscall Number : ---> file /usr/include/asm/unistd_64.h

2. Input parameters for the write syscall : ---> command: man 2 <syscall_ name>

3. Where to store the input parameters of write syscalls ?
--->

System call Number: RAX
First input parameter: RDI
Second input parameter: RSI
Third input parameter: RDX
Fourth input parameter: R10

Information needed

write Sys call Number: 1

write(fd , buffer_pointer, count)

3. where to store the input parameters of syscalls ?

--->

System call Number: RAX
First input parameter: RDI
Second input parameter: RSI
Third input parameter: RDX
Fourth input parameter: R10

Information needed

write Sys call Number: 1

write(fd , buffer_pointer, count)

3. where to store the input parameters of syscalls ?

--->

System call Number: RAX
First input parameter: RDI
Second input parameter: RSI
Third input parameter: RDX
Fourth input parameter: R10

Information needed

write Sys call Number: 1

3. where to store the input parameters of syscalls ?

write(fd , buffer_pointer, count)

--->

System call Number: RAX
First input parameter: RDI
Second input parameter: RSI
Third input parameter: RDX
Fourth input parameter: R10

Information needed

write Sys call Number: 1

3. where to store the input parameters of syscalls ?

write(fd , buffer_pointer, count)

--->

System call Number: RAX
First input parameter: RDI
Second input parameter: RSI
Third input parameter: RDX
Fourth input parameter: R10
