==

Network Scanning Tools

- There are a lot of network scanning tools available, but one I hear about constantly is 'nmap'. Can we start this episode with a quick rundown of nmap?

    - Look at nmap.org
    - Look at nmap help
    - Look at nmap man page

- What are some of the other network scanning tools that we should be aware of?

    - Quick demos

        - Unicornscan
        - Masscan
        - Metasploit
        - hping3

    - Honorable Mentions

        - Solarwinds Port Scanner
        - PRTG Network Monitor
        - OmniPeek

- How about network scanning tools that work on mobile platforms?

    - Looks at websites for

        - Fing (https://www.fing.io)
        - Look for scanners in app stores
