

Blockchain Use Cases in Government & Public Sector

Blockchain - Election

- Governments of many countries are experimenting with blockchain in governance to facilitate transparency and efficiency.
- In many countries, blockchain-based governance applications will surely help eliminate corruption issues, bringing in effective deployment and utilization of resources.
- In elections, a blockchain-based application can serve as an underlying infrastructure for tracking and tallying votes and prevents electoral fraud including fake voters and forged votes.
- The blockchain-based platform can deliver voting solutions for private, business, and organizational voting for government elections.

Blockchain in Election (Examples)

- Voatz, is a for-profit, private mobile election voting platform that offers voting services for governmental and organizational structures.
- The Voatz requires a valid photo ID, and a facial recognition system is in place to verify user details from the voter rolls.
- Users are issued a secure token that is activated using a 6-digit code or uses biometric verification as their private key.
- **Votem** is another provider of voting platforms serving private customers and government, public and military sector customers.

Blockchain for Non-Business Entities

Ways Blockchain will Reinvent the Non-Profit Sector

**Lower
Administrative
Costs**

**Facilitating
Emergency
Aid**

**Giving Chain
Transparency**

**Cryptocurrency
Donations**

**Goal-Driven
Fundraising
Models**

**Donor
Anonymity**

**Cross-Border
Donation**

Blockchain for Non-Business Entities (Examples)

- **Airbus** – Their heritage blockchain project gives charities a full-service blockchain platform that helps improve operational efficiency. Blockchain helps them lower their administrative costs.
- **Bitgive** – Giving/donation tracking on the blockchain. It helps in giving their chain transparency.
- **Crypto Kitties** – Auctioned '**Honu Kitty**' to save the ocean. Blockchain helps them in auctioning digital collectibles.
- **Unicef Australia** – Created a page where people can mine for charity.
- **Cudo Donate** – People can download apps and mine for charities.
