

DOCKER

Use Secret in Docker Service

- Understand the Secret Commands

`docker secret --help`

- Ways to Create Secret

- By file:

`docker secret create <secret_name> <file_name>`

- By CLI:

`echo "Secret_String" | docker secret create <secret_name> -`

Docker : Docker Swarm

- Inspect the Secret:

```
docker secret inspect <secret_name>
```

- Create Postgres Service with secrets:

```
docker service create --name <service_name> --secret
```

```
<username_secret> --secret <pass_secret> -e
```

```
POSTGRES_PASSWORD_FILE=/run/secrets/
```

```
<pass_secret> -e POSTGRES_USER_FILE=run/secrets/
```

```
<user_secret> <IMAGE>:TAG
```

Will see you in Next Lecture...

Thank you!

A close-up photograph of a hand holding a black marker, writing the words 'Thank you!' in a cursive script on a white surface. The hand is positioned on the right side of the frame, with the marker tip touching the paper. The background is plain white.

See you in next lecture ...
