# Exporting Data

A screenshot of the 'Wireshark: HTTP object list' dialog box. The dialog has a title bar with standard window controls (minimize, maximize, close). Below the title bar is a table with five columns: 'Packet num', 'Hostname', 'Content Type', 'Size', and 'Filename'. The table contains five rows of data. At the bottom of the dialog, there are four buttons: 'Help', 'Save As', 'Save All', and 'Cancel'. The 'Cancel' button is highlighted with a blue border.
