001.5- Assignment: Make a test plan for hackxpert.com

I would like you to write out a full pentest plan as good as possible with the following parameters:

- Your target will be https://hackxpert.com/pentest/ and the imaginary network of 10.10.212.0/24

- This pentest will be partially internally (network via VPN) and partially externally (website but Cloudflare will be disabled)

- Anything is in scope except for DoS and DDoS attacks

- Timeframe: 4 hours
