You answered 3 out of 3 questions correctly

1. It is necessary to confirm that all red team operators completely understand how to reach their goals by fully consuming the RoE.

All operators must know the RoE inside and out. They should know how to reach each and every goal assigned to them as well as knowing what items are out-of-scope.

2. Testing equipment is not part of the Execute Staging phase.

Equipment testing must be performed during the Execute Staging phase before the red team deploys into the field.

3. The use of prowords during inter-team communications, particularly when out in the field, helps make communication more efficient.

Using prowords like, "Radio Check" and "Copy That", help make inter-team communication more efficient when in the field.
