Copy

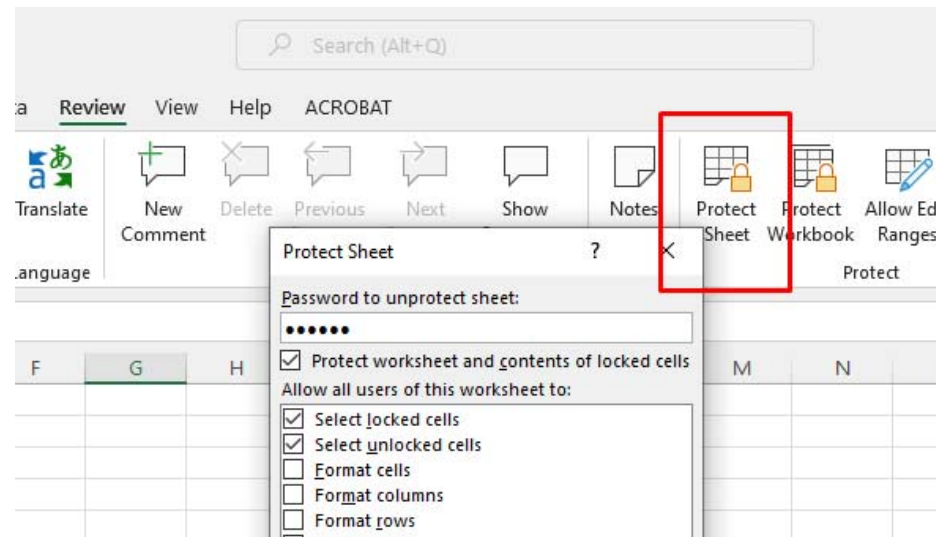

Remove Excel Sheet Protection

Step- 1

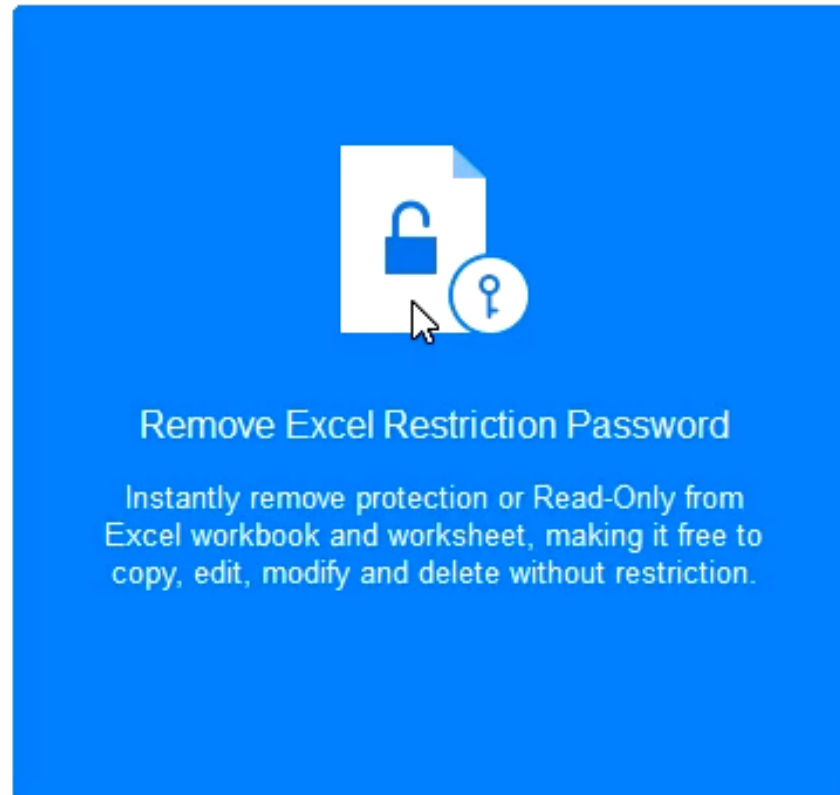

- ❖ You can protect a sheet from the review tab in Excel. A protected sheet limits any modification in the sheet

Go to Review tab then select the option to protect sheet, Give it a Password

Step- 2

- ❖ Open PassFab for excel and choose the option to unlock sheets

Step- 3

- ❖ Now Click on Import and select the target file

Recover Excel Open Password

Please import Excel file.

Step- 4

❖ Now click remove

Remove Excel Restriction Password

crackme2.xlsx 

 Remove

Step- 5

- ❖ Your sheet protection will be removed automatically and a copy of the file will be generated

Congratulations! The Excel workbook or worksheet restriction password has been removed.
