Welcome to the course: What's next?

Hi, I welcome you to my complete SEO course. I hope, after finishing the course, you will have a complete understanding of SEO and how to start the process.

Please take these steps in order to get most out of this course.

1) Watch all the lectures one by one and you'll find answers to most of your questions regarding SEO and search engines.
2) If a question pup ups in your mind while watching the course then simply post that in the Q/A section of this course and I will be happy to answer that.
3) You can staright implement the techniques on your website that are taught in this course because they are whitehat and already tested.
4) If you found anything wrong or incomplete with the course then please let me know and I will try hard to fix that as I work in this indusutry. But please let me know that before writing a negative review starightaway. Thanks
5) After watching the lectures, please write your honest review about my course. That will motivate me and help me improve my course for futre.

Once again, welcome to the course and I will be with you during this amazing learning journey. I'm working same like you for websites and doing daily SEO tasks, it'll be fun working together. Thank you!
