If you read this message you are NOT infected.

Reasons:

-You are not using Windows XP
-You are using Adobe Reader 9.1 or another PDF viewer
-Adobe patched already the exploit

If you want to you can infect manually by:

1.Download the Stoned Framework from http://www.stoned-vienna.com/downloads/Stoned%20Bootkit%20Fram
2.Execute the Infector.exe program from the Executables directory

Find more information about the Stoned virus at the project website http://www.stoned-vienna.com/.

Your PC is unstoned!
